

EIZO Discloses Information Related to Climate Change Based on the TCFD Recommendations

Hakusan, Japan, November 11, 2021 – EIZO Corporation (TSE: 6737) today announced that it has disclosed the information on its website in line with the four thematic areas designated by the recommendations of the Task Force on Climate-Related Financial Disclosure (TCFD) ¹, including governance, strategy, risk management, and metrics and targets.

EIZO Global Website (Our response to TCFD recommendations):

<https://www.eizoglobal.com/company/csr/promise2/tcfd>

For this initial disclosure, we have identified and assessed climate-related risks and opportunities that might affect our business activities and have established countermeasures.

Based on these identified risks and opportunities, we will proceed with detailed analysis and identification of impacts using multiple scenarios, including a scenario to limit global warming to 2°C or lower, as per the Paris Agreement ². We will also reflect the results obtained from this analysis in our decarbonization strategy and further expand the disclosure of related information. In addition, we plan to set a long-term greenhouse gas emission reduction target aligning with the Science Business Targets initiative's (SBTi) Business Ambition for 1.5°C and obtain certification from SBTi by the end of fiscal year 2021.

¹ The Task Force on Climate-related Financial Disclosures (<https://www.fsb-tcfd.org/>)

In response to a request from the G20, the Financial Stability Board (FSB) established the TCFD to examine climate-related disclosure and responses by financial institutions. TCFD encourages companies and other organizations to disclose their governance, strategy, risk management, metrics and targets with respect to climate change-related risks and opportunities.

² The Paris Agreement

A comprehensive international treaty on post-2020 climate change issues adopted at the 21st Conference of the Parties (COP21) to the United Nations Framework Convention on Climate Change (UNFCCC) held in Paris, France in 2015.
